GOAL CI-1: PROVIDE PUBLIC FACILITIES TO MEET EXISTING DEFICIENCIES AND MAINTAIN ADOPTED LEVEL OF SERVICE STANDARDS AS IDENTIFIED IN THE COMPREHENSIVE PLAN.

Objective CI-1.1: Capital Improvements and fiscal resources shall be included in the Capital Improvements Element and shall be consistent with the needs identified in other elements of the comprehensive plan.

Policy CI-1.1.1: Evaluation of capital improvement projects shall include the following criteria and shall be ranked in the following order of importance:

A. Elimination of capacity deficiencies and public hazards;

B. Accommodation of new development and redevelopment consistent with the Future Land Use Element and Map;

C. Compatibility with other State and private agencies providing public facilities within Walton County.

Policy CI-1.1.2: Funding for infrastructure replacement and renewal shall be evaluated and allocated so as to minimize the operating costs and maximize the life of infrastructure.

Objective CI-1.2: Public expenditures in the Coastal High Hazard Area shall be limited to maintaining the existing service capacity, except for recreation facilities.

Policy CI-1.2.1: Appropriations for capital improvement projects located in the Coastal High Hazard Area shall be necessary to maintain existing infrastructure at the adopted level of service standards. However, public funding shall not be utilized to increase density in the Coastal High Hazard Area.

Policy CI-1.2.2: Fees shall be assessed for new development in the Coastal High Hazard Area to finance public facility improvements necessitated by new developments in order to maintain adopted level of service standards.

Objective CI-1.3: Capital improvements shall be constructed in accordance with the Capital Improvements Schedule (CIS).

Policy CI-1.3.1: The County hereby incorporates by reference the most recent versions of the Florida Department of Transportation Five Year Work Program and the most current version of the Cost Feasible Plan included within the Okaloosa-Walton Long Range Transportation Plan into the CIS.

Policy CI-1.3.2: The five-year schedule of capital improvements shall reflect the needs identified in other elements of the adopted Comprehensive Plan and shall be consistent with the county's projected fiscal resources shown in the CIS. Attachment 1, the Five Year Schedule of Capital Improvements shall be reviewed and updated as a part of the County's annual budget process.

Policy CI-1.3.3: Capital improvement projects shall maintain the following minimum level of service standards:

A. Transportation: As set forth in the Transportation Element of the Walton County

Comprehensive Plan.

B. Sanitary Sewer Facilities: 100 gallons per capita per day (gpcpd).
C. Solid Waste: Disposal Capacity 6 pounds/capita/day.

D. Drainage Facilities: As set forth in the Stormwater Management Sub Element of the Walton County Comprehensive Plan.

E. Potable Water Facilities: 100 gpcpd and a minimum standard of 20 pounds per square inch (psi) and 650 gallons per minute (gpm) for potable water lines, or a higher standard as determined by the County Fire Districts to be necessary.

F. Recreation Facilities: The County will maintain a minimum of 6.25 acres to 1,000 population level of service for recreation facilities.

Objective CI-1.4: Future development shall bear a portion or all of the cost of facility capital improvements, where necessary, to maintain adopted level of service standards.

Policy CI-1.4.1: Utilize fees and assessments to provide for partial or complete funding for future capital projects.

Policy CI-1.4.2: Infrastructure shall be provided to serve new development in accordance with the concurrency management system included within the Land Development Code and elsewhere in this Plan.

Objective CI-1.5: Development orders or permits shall not be issued unless the proposed project is consistent with the adopted level-of-service standards or is planned to be.

Policy CI-1.5.1: The availability of public facilities concurrent with the impacts of development shall be determined through the County's development review process, more particularly delineated in the County's Land Development Code.

Policy CI-1.5.2: The County Planning Department shall determine the sufficiency of existing and planned infrastructure to serve proposed development.

Policy CI-1.5.3: If projected revenue sources are not obtained, capital projects not relied upon for concurrency will be delayed or level of service standards will be lowered through an amendment to the Comprehensive Plan.

Attachment 1: Five Year Schedule of Capital Improvements

This five year Schedule is a listing of those capital improvement projects within Walton County that benefit the roadways and / or address the existing deficiencies in Level of Service (LOS).

Transportation
