

## WALTON COUNTY BOARD OF COUNTY COMMISSIONERS PROJECT INFORMATION FLYER

PROJECT ID: 25-09

LOCATION: SANTA ROSA BEACH

PROJECT MANAGEMENT: WALTON COUNTY ENGINEERING DEPARTMENT

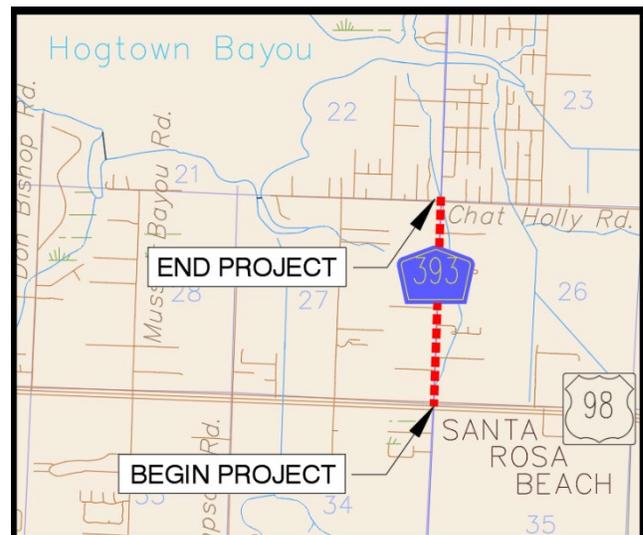

### COUNTY ROAD 393 NORTH DRAINAGE AND PEDESTRIAN IMPROVEMENTS

Walton County is pleased to provide information regarding roadways, drainage, and pedestrian improvements along CR 393 from US Hwy 98 to Chat Holley Road in Santa Rosa Beach:

**Construction Cost:** \$3,505,165.25    **Construction Start:** July 2025    **Estimated Completion:** Late Summer 2026

#### PROJECT IMPROVEMENTS

- The scope of the project includes the reconstruction of CR 393 North from US Hwy 98 to Chat Holley Road. The construction project will include a 6' sidewalk, an enhanced drainage conveyance system, and a traffic separator designed to restrict turning movements along CR 393 at its intersection with US 98 for improved intersection safety.
- The proposed concrete sidewalk will be 6' in width and located on the east side of CR 393 North. The sidewalk will be protected from the travel lane by curb and gutter.
- The enhanced conveyance system will improve drainage and additionally provide a water quality component to treat stormwater runoff prior to discharge.

#### TRAFFIC IMPACTS

- To safely implement the proposed drainage and sidewalk improvements, CR 393 North will be restricted to northbound traffic only until construction is complete. Alternate routes utilizing Church St, J.D. Miller Road, and US 331 are available via Chat Holley Road and Churchill Bayou Road.

#### GENERAL INFORMATION

- The contract duration for the project is 325 calendar days.
- This project is funded through a Resilient Florida Grant administered by the Florida Department of Environmental Protection.
